The Law Enforcement Coordinating Committee's Executive Committee would like to invite you and relevant members of your agency to attend the 20th Annual Crime in Arizona Conference.

Agency meetings: ACJC and HIDTA. LECC Subcommittee on Public Corruption.

This conference will provide the attendees with presentations on the subject of Crisis Negotiations. Crises Negotiations includes but is not limited to, crises situations such as hostage situations, negotiations with one your own, police suicides, domestic terrorism, in short, any crises where negotiations take place.

We have taken this subject matter and made it inclusive to a broad scope of applications by adding breakout sessions covering a variety of pertinent subjects. Thursday's general session topics will include: (1) Crises Negotiations then and now, a historical comparison on the past norms, current best practices and where Crises Negotiations is going; and (2) Presentations on negotiation concepts and decision making criteria used by commanders during critical incidents. It will also address assessing risk during crisis situations.

Thursday will be capped off with a presentation from Robert E. Douglas Jr., Executive Director of the National P.O.L.I.C.E. Suicide Foundation, a retired police agent from the Baltimore City Police Department and Chaplin for the Baltimore City. He is currently serving as Chaplin for the Alcohol Tobacco and Firearms in Baltimore and Washington DC. Reverend Douglas is a nationally known presenter and one of the most highly sought after speakers on the subject of Crises Negotiations.

Friday's half-day training will consist of two breakout sessions: (1) legal issues to be considered when using technical devices; and (2) addressing the topic of negotiating with one of your own.
